Mission update from Reem

What care looks like in action

As a Gradient Learning Leader Coach, I always look forward to sharing stories that highlight the incredible work happening in our partner schools. Today, I want to celebrate Columbia High School in Nampa, Idaho, and the truly inspiring journey they've undertaken.

Principal Cory Woolstenhulme sums up the transformation simply: "In one word, it's care." In partnering with Cory and his team, I've seen them build this "culture of care" that drives high expectations and measurable success through robust, student-centered systems.

I am immensely proud of the results we've achieved together:

- **Academic surge**: Columbia scored above the state average on the external 2025 Idaho Standards Achievement Test (ISAT) for the first time.
- **Targeted growth**: Math scores on the ISAT assessment saw a substantial 11% increase from the previous year.
- **Boosted engagement**: Overall student attendance climbed dramatically to a strong 94%.

When we commit to intentional care and clear systems, we achieve outstanding outcomes for every student.

I encourage you to read the **full case study** to understand the systems and strategies that led to these exciting results!

Reem Cook, Leader Coach

New resource: lead change with confidence

The best leaders don't just react to change, they champion it. From setting a clear vision to guiding teams through uncertainty, school leaders play a vital role in shaping a thriving school culture.

That's why we created *The 4 Must-Haves to Lead Change in Schools*, a free, practical guide designed to help leaders navigate the complexity of change with clarity and purpose.

The middle school moment: Wiring student brains for lifelong success

The middle school years are a pivotal window when teaching durable life skills alongside academics is not a luxury, but a developmental necessity. **Read more.**

Empowering students to see the world through data

Through **youcubed**'s Explorations in Data Science, a high school math curriculum offered by Gradient, students discover that data isn't just numbers—it's stories, playlists, and the patterns that shape their everyday lives. **Read more.**

How does a sense of belonging and agency drive student success?

There's a powerful link between student voice and academic success. In a recent webinar with Educating All Learners, Gradient experts explored why when students feel a sense of ownership, their engagement soars. **Read more.**
